

BEGINNING VEGETABLE GARDENING

Gardening for a Healthier Life

These 4 fun and easy workshops offer lots of hands-on activities to teach you how to have a healthy, productive garden! Each workshop is 2 1/2- 3 hours long.

Topics include: Planning your garden, healthy soil, composting, planting layout, seed starting, how to transplant, beneficial insects and pest management, appropriate water use, harvesting and more!

Hands-on Activities are the cornerstone of these workshops!

Everyone is welcome to attend - backyard gardeners, community garden plot holders, school teachers - all can benefit from these workshops! If you are under 18 years old, you need to register with a parent.

Space is limited, so sign up today!
